How Points Work

Your first care visit after signing up earns points. They show in your account as “pending” until your next visit, and they are released when you arrive.

What Is a Care Visit

Any maintenance appointment for micro rings, bonds, tapes and wefts, as well as any maintenance for toppers, wigs and clip-ins. A new set or a new piece is not a care visit.

What You Earn

1 point for every £1 you spend at a care visit. The maintenance itself, colour, a blow dry, a trim, Davines products, anything you buy that day. 10 points is £1. New sets and hair pieces do not earn points.

What That Is Worth

A £400 visit puts 400 points pending. 10 points is always £1 when you spend them. What changes is how many of those pending points are released, and that depends on how often you come in.

MICRO RINGS, MICRO BONDS AND WEFTS

Come every 8 weeks	All 400 £40, 10% back
Every 10 weeks	300 £30, 7.5% back
Every 12 weeks	200 £20, 5% back
Longer than that	Talk to us Nothing automatic

TAPES

Come every 6 weeks	All 400 £40, 10% back
Every 8 weeks	300 £30, 7.5% back
Every 10 weeks	200 £20, 5% back
Longer than that	Talk to us Nothing automatic

Toppers, Wigs and Clip-ins

Topper care, wig care and clip-in care work differently. Points are earned and released in full, whenever you come in. There is no clock on them, so you always get the whole 10%.

Your Care Date

Your stylist sets it at the end of every visit, based on your hair rather than a calendar. Toppers, wigs and clip-ins have no care date, because it depends on how much you wear the piece. Come in when it needs it and your points are released in full.

Micro rings, micro bonds and wefts	8 weeks
Tapes	6 weeks
Toppers, wigs and clip-ins	No care date

Worth Knowing

Pending points are not yours yet

How many are released is set by how often you come in for care. They belong to your next visit, not the one you are in.

Booking is worth 100 points

Book your next visit at the desk before you leave. That is the only way to earn it, and it is released when you arrive.

Keeping it is worth another 100

Come to the appointment you booked, on the day you booked it, and you get a second 100. Move it and you keep the first but not the second.

When you come in decides what you get

Micro rings, micro bonds and wefts: come in for your maintenance at 8 weeks, or within a week after, and you get the full 10% back. By 11 weeks it is 7.5%, by 13 weeks 5%. After 13 weeks you get nothing, and the booking points go with them. Tapes: come in for your maintenance at 6 weeks, or within a week after, and you get the full 10% back. By 9 weeks it is 7.5%, by 11 weeks 5%. After 11 weeks you get nothing, and the booking points go with them.

Once released, points last 24 months, and we tell you 3 months before any run out.

Your Points

1,240 POINTS £124

Yours to spend on anything, at any visit. 10 points is £1.

PENDING

700 points

Worth £70 if you come in by 21 November. Come later and less points are released.

Plus 100 booking points, and another 100 if you keep this appointment.

Every Line

REVIEW

Tell Us How It Went

250 points for sharing it to one, 500 for both. Once every 6 months.

YOUR REVIEW

 COPY

Tatiana is the only person I trust with my hair. Three years in and it still looks like mine.

The reviews people find most useful say what was done and how it has held up.

Tapping below copies this and opens the site. It is kept here either way, so you can come back and post it to the other one.

We never ask for a particular rating and the points do not depend on what you write.

FAQs

The things clients ask us most. If yours is not here, message the salon and we will answer it.

YOUR HAIR

Why do we encourage maintenance early? —

Because it is the closest thing to having a brand new set every single time. Your own hair grows a little over a centimetre a month and the rings travel down with it, so they start to show around 8 weeks. Left longer, your own hair gathers and tangles at the root. Coming on time keeps it looking new, and it makes the appointment itself quicker and easier for both of us.

What happens at a maintenance appointment? —

Come to us with your hair freshly washed. Your extensions come out, the rings are replaced and the ends are re-tipped, and the same hair goes back in. You walk out with what feels like a brand new set.

YOUR POINTS

What happens to my points if I come in late? —

Micro rings, micro bonds and wefts: come in for your maintenance at 8 weeks, or within a week after, and you get the full 10% back. By 11 weeks it is 7.5%, by 13 weeks 5%. After 13 weeks you get nothing, and the booking points go with them. So if you always come in at 12 weeks, you only ever get 5% back. Tapes: come in for your maintenance at 6 weeks, or within a week after, and you get the full 10% back. By 9 weeks it is 7.5%, by 11 weeks 5%. After 11 weeks you get nothing, and the booking points go with them.

How do the 2 booking bonuses work? —

There are 2, and there are no exceptions to either. You get 100 points for booking your next visit at the desk before you leave. Book it later, by phone or by email and you do not get it. You get another 100 for coming on the exact day you booked. Move the appointment to another day and you do not get it. Keeping your date is what lets the salon plan the diary ahead, and this is our thank you for it.

If I pay with points, do I still earn? —

You earn on the amount you pay in cash. Pay part of the bill with points and the rest in money, and the money part earns as normal.

Does a new set or hair piece earn points? —

No. Points come from what you spend at a care appointment, the maintenance itself, colour, a blow dry, a trim, Davines products, anything you buy that day. A new set or a new piece earns nothing, though it still fills a box on your Care Card, and you can spend your points on one.

How does the Care Card work? —

Every care visit fills a box on your Care Card, and so does a new set or a new piece. Fill all 4 boxes and we add 500 points, worth £50, to your balance.

Do they run out? —

After 24 months from the day they land, and we tell you 3 months before anything does. They are never taken away for anything you do.

What do the different tiers give me? —

Your tier is set by how many care visits you have had in the last 12 months, never by what you spend. Silver is where everyone starts: 1 point for every £1 at a care visit, and the Care Card. Gold comes at 4 care visits: 1.25 points for every £1. Black comes at 6 care visits: 1.5 points for every £1.

Anything else, message the salon from the Contact tab and we will answer it.
